ABDULRAHMAN ELSAID MOHAMED

React Front-End Developer

Alexandria, Egypt • 01146897069 • bodaelsaeed102@gmail.com • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Detail-oriented and driven Front-End Developer and 3rd-year Computer Science student specializing in building responsive, scalable, and user-centric web applications using React.js, TypeScript, and modern web technologies. Backed by intensive professional training through the Digital Egypt Pioneers Initiative (DEPI - Round 5), with hands-on experience in full-stack integration (Node.js/Express) and modern development workflows (Docker, Git). Strong foundation in computer science fundamentals, UI/UX principles, and collaborative teamwork, eager to contribute effectively to innovative engineering environments.

TECHNICAL & SOFT SKILLS

Frontend:	React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design, Component Architecture, UI/UX.
Backend & DB:	Node.js, Express.js, REST APIs, MongoDB, SQLite.
Tools & DevOps:	Git, GitHub, Docker (Containerization basics), VS Code.
Fundamentals:	Data Structures & Algorithms, CCNA Networking Concepts, Web Security Basics (XSS/CSRF).
Soft Skills:	Problem-Solving, Cross-Functional Teamwork (Agile), Time Management, Adaptability, Communication.

PROJECTS

1. proCura – Health Risk Predictor & Tracker `In Progress`

React, TypeScript, Node.js, Express, MongoDB, Docker

- Collaborating as part of a joint cross-functional team (React Front-End Team & Microsoft Machine Learning Engineers Team) under DEPI to build an AI-powered health monitoring platform.
- Designing and implementing a responsive React & TypeScript dashboard using Bootstrap for real-time vital tracking and health data visualization.
- Developing Node.js/Express backend API endpoints to handle secure user profiles, health records, and communication with the Python machine learning layer.

2. Binaa Real Estate Platform

React.js, JavaScript, Tailwind CSS, HTML5/CSS3

- Developed a fully responsive real estate web application featuring multiple property management views including Home Page, Units Listing, Detailed Unit Display, Zones, Projects, and Developer profiles.
- Implemented clean component architecture and interactive user interfaces to optimize property browsing and user contact workflows.

3. Interactive Portfolio & Web Apps

React.js, JavaScript, HTML5/CSS3

- Designed and deployed a personal developer portfolio showcasing interactive web components, dark mode, and responsive layouts.
- Built various mini-projects to strengthen state management, UI component reusability, and front-end performance optimization.

EXPERIENCE & TRAINING

Digital Egypt Pioneers Initiative (DEPI) | Round 5

2026 (Enrolled)

React Front-End Development Track

- Acquired advanced professional training in modern front-end architectures, TypeScript, state management, backend integration (Node.js/Express), Docker containerization, functional documentation, and unit testing.

EDUCATION

Egyptian E-Learning University (EELU)

2024 – Present

Faculty of Computers and Information Technology — **3rd Year Student** (Software Engineering Track), Alexandria, Egypt

CERTIFICATIONS & COURSES

Strategic Thinking in AI
HP LIFE / HP Foundation • Sep 2026

Introduction to Cybersecurity
Cisco Networking Academy • Sep 2026

Khamsat Work Basics Certificate

Oracle AI for You & CCNA/CS50
